Confident Therapist – Profitable Practice Summit

THE CONFIDENT THERAPIST PROFITABLE PRACTICE SUMMIT

This is in-depth business growth Summit, specifically designed for coaches, therapists, counsellors, psychotherapists, hypnotherapists and healers who want to become a more Confident Therapist with a Profitable Practice.

You will enjoy ONE jam packed day, filled with focused business coaching, training and therapy to end self-sabotage, dissolve fear, build confidence and grow a profitable therapy practice.

This course has been developed because most therapists never learn the skills required to grow a successful practice. This Summit fills that knowledge gap.

HEAL YOUR THERAPY PRACTICE

From the moment you arrive, you will enjoy live demonstrations, powerful client attraction metaphors and practical, actionable coaching exercises to build confidence and grow a profitable practice.

No selling is done from the stage. This training is provided by Susan Wallace, who is a teaching therapist with an MSc in Digital Marketing and a Post Graduate Certificate in Innovation, New Product and New Service Development.

SCHEDULE OF EVENTS

#1: Finding Your Unique Voice

In this process, you will learn how to get a ‘Wow!’ followed by a ‘How Do You Do That?’ response from people when you describe your services. Your description will be both memorable and a great conversation opener that will effortlessly guide people towards your services.

#2: Crafting Your Heartfelt Message of Inspiration

This amazing metaphor will transform how you communicate with potential clients. You will be able to connect more authentically than ever before. You will become *the* first choice because you energise and inspire people to take action and become their best self.

#3: Turn a Free Consultation into a High Value Discovery Session

You will learn how to enrol new clients without ever having to sell yourself or step out of your comfort zone again. This on-boarding process will ensure you have fully committed clients ready to give you 100%.

SCHEDULE OF EVENTS CONTINUED

#4: Tap into your Superpower

Every therapist has a Superpower. This is the special skill that is often hidden below awareness, but in this lesson, we will draw it out. Your Superpower is often forged in the fire of your life experience, your journey and your passion as a therapist.

#5: Discover Your Power Niche

This process will help you become clear on how to define and develop your Superpower and turn it into your signature service. Plus, you will learn how to easily and effortlessly grow multiple income streams from your superpower.

#6: Create a Client Journey Your Ideal Clients Will Love

This process will show you how to turn visitors online or at your workshops into highly-motivated clients – who refer lots of new clients to you and speak highly of the work that you do.

#7: Understand How Digital Marketing is Disrupting Therapy

Learn how the new (digital) generation are disrupting the therapy model and how our industry is undergoing a massive shift. You'll learn exactly what you can do to stay ahead of the changes.

#8: Learn how to Release the True Value Hidden in your Skills

It's easy to create simple online products and courses for your clients. Bringing part of your practice online, will enable you to become even more client-centred. You'll be there to support them and provide them with extra online resources when they need them most.

#9: Strategically Pricing Your Therapy Skills

Most therapists struggle to ask for a fair price. You will learn how to price your services strategically so that you can deliver even more value and get better results - without increasing your hours (and without being out of pocket).

#10: Getting Referrals, Introductions and Testimonials

Discover how to harness the psychology of change-work to get great referrals. When you use this process your clients will become a source of endless referrals, testimonials and introductions.

This is a long but highly enjoyable day and you will leave the Summit feeling energised and inspired to step into your greatness.

You'll have a clear action plan. Plus, you'll have done most of the 'heavy lifting' on the day.

www.resultsxo.com

WHAT YOU WILL GET

You will enjoy tea, coffee, lunch and snacks throughout the day to keep you focused and energised. You'll get a comprehensive course manual, plus infographics, worksheets and mindmaps to help you develop a crystal clear vision for your practice.

You will leave the Summit with the skill-set you need to become a more confident therapist with a more profitable practice. You'll have mastered a series of processes that will be perfectly aligned with your high standards and code of ethics. You'll know exactly how to attract a regular supply of your ideal clients into your therapy practice and how to release the true financial value hidden in your skill-set.

The training on this course is based on the business growth strategies used by the top 5% of coaches, therapists and healers such as Tony Robbins, Deepak Chopra, Harv T Eker and the late Wayne Dwyer.

WHO IS SUSAN WALLACE

Susan Wallace is a teaching therapist and the UK's #1 Therapy Business Coach. Susan has one simple mission - to help coaches, therapists and healers be the best, have the best and give their best to their clients.

Susan is considered one of the best platform speakers in the health and wellness sector. She combines actionable business coaching with live therapy demonstrations to help her audience overcome their doubts and fears and take their career to the next level.
